Introduction from the President

Greetings,

We are well into the holiday season. I hope you are taking a minute or two to find time to relax amongst all the hustle and bustle of the season. A big 73 to K5JVG John for being net control last Saturday on the Statewide Chat Shack Net. If you are a member and checked in you will receive 1 ticket towards the incentive program grand prize. We have openings for Net controllers through February 2025. An email is all it takes to save a spot. Details in the newsletter.

We are 3 days away from our holiday party and 20 year celebration. I have spoken to the store manager at Rudy's Country store and BBQ on the westside of Albuquerque and announced to them when we are coming. We don't want them to run out of brisket, hot links , ribs and chicken. He said they will be ready for us. The date is this Saturday December 14, 2024. The official time is 4 PM to 6 PM. Please plan on getting there a little early to stand in line to get food. Important Details in the newsletter.

The January 2025 Satellite workshop and February 2025 DMR Workshop are filling. Don't wait till the last minute to register. It takes a simple email to <u>hdarcpres@gmail.com</u> to do so. We have a location in Albuquerque for both workshops. Details in the newsletter. I look forward to chatting with you on Saturday on the Statewide Chat Shack Net. I am also announcing two (2) NEW workshops starting in March 2025.

73 Mike KI5NBP

Club Repeaters and Simplex Frequencies

The Club has Two Repeaters, 442.750+ PL 162.2 on Sandia Crest and 145.370 - PL 162.2 in Edgewood. The Club uses two Simplex frequencies, 146.460 and 446.025

Join the FUN, join the Club

Are you aware that the HDARC is one of the most active Amateur Radio Clubs in New Mexico? Well, it is! Read on and find out! Tell a friend! <u>www.nm5hd.org</u>

To become a club member go to <u>www.nm5hd.org</u> and click on the "become a member" tab to join the ever growing group of the coolest Hams in New Mexico, you'll be glad you did!

Join the ARRL

The American Radio Relay League, the ARRL, a non-profit organization, is the largest membership association of amateur radio enthusiasts in the United States. The ARRL represents the interests of amateur radio operators before federal regulatory bodies, the ARRL provides technical advice and assistance to amateur radio enthusiasts, it also supports a number of educational programs and sponsors emergency communications service throughout the country. The HDARC is an ARRL Affiliated Club and a ARRL Special Service Club. We encourage you to join. Click on this link: <u>https://www.arrl.org/membership</u>

HDARC Holiday Dinner and 20 Year Celebration -Update

Saturday December 14, 2024 is our annual HDARC Club Holiday Dinner. We will be having the holiday/celebration dinner at <u>Rudy's Country Store and BBQ at</u> <u>10136 Coors Blvd NW in</u>

Albuquerque NM. Festivities will begin at 4. P.M. You might want to show up early to get in line for food. Members and their guests will be responsible for getting their own food and then joining us in the enclosed and heated patio area. Bring your HDARC stories for sharing and your appetite. <u>Members please</u> wear your HDARC name badge or other club identifying apparel.

We will be giving away HDARC swag and prizes in honor of this milestone. Members in good standing that attend will receive free raffle tickets. This is the current prize list.

- Two (2) \$100.00 gift certificates to Ham Radio Outlet (HRO).
- Five (5) Anniversary Edition Black HDARC Hats w/logo
- Two (2) HDARC Anniversary YETI 24 oz mug engraved with HDARC Logo
- One (1) Baofeng DM-1701 DMR | Dual Band | 5W | 120K Contacts
 Import | SMS Function
- Two (2) CW Transceiver Kit, CW QRP Ham Amateur Shortwave Radio Transceiver Including Unsoldered Circuit Board Scattered Components Kit Circuit Diagram
- One (1) HAM 1-30 Mhz Manual Antenna Tuner for HAM Radio QRP DIY Kit (handles up to 15 watts)

If you plan to attend please RSVP at

<u>hdarcpres@gmail.com</u> I need just a number of who is attending to ensure we save enough space.

Saturday CHAT SHACK NET Incentive Program-Update

This program has been developed to promote members to participate in the Saturday Chat Shack Net and develop net controller skills. We just finished the 4th week of the program that runs through February 2025. The membership approved this incentive program for members who check in and members who volunteer to take on the role of net controller on various Saturdays. I have the following dates available if you wish to volunteer as net controller:

December 2024:	Saturday December 14, 2024
	Saturday December 28, 2024
January 2025:	Saturday January 4, 2025
	Saturday January 11, 2025
	Saturday January 25, 2025
February 2025:	Saturday February 8, 2025
	Saturday February 22, 2025

This past Saturday's net controller was K5JVG John. The following members call signs checked in:

AG5UY N6SIK KI5NBP KG5ZRU NM5MC WA5YUL NS7X As of this publishing I have no new volunteers for operating net control this coming Saturday. Mike C NM5MC will be running the net.

Any member in good standing who checks into the Saturday Net will receive a ticket with their call sign attached. When you check into the Chat Shack Net indicate that you are a member, clearly give you callsign using phonics. The net controller will submit their log sheet to the President who will verify and assign tickets. Those who chose to volunteer to be net controller and complete that assignment for a given Saturday will receive 5 tickets with their call sign attached. A member can be a net controller once per month.

Net controllers will be assigned on a first come first serve basis. You only need to be a net controller for the specific date you sign up for. We have a specific script to guide you and mentoring if you wish.These are not long term assignments. You can determine if you liked net control and if you liked the assignment we can schedule you again in a month or after the challenge.

If you wish to be net control for the Saturday Chat Shack Net on any of the available dates send an email to <u>hdarcpres@gmail.com</u>. The grand prize is a \$300.00 gift certificate to HRO (Ham Radio Outlet) and will be drawn at the March membership meeting. At every monthly club meeting between now and February 2025,members who participated can obtain an envelope with the tickets they earned to date. We hope that members actively participate in this challenge.

Saturday CHAT SHACK NET/MegaLink

The Saturday 10am CHAT SHACK NET will use the 444.325 + PL 100 and the 145.290 - PL100 on Sandia Crest in order to access the MegaLink system. *NM5HD Net Controllers :*

1st Saturday, John Gleeson, K5JVG
2nd Saturday, OPEN . VP Mike C NM5MC
3rd Saturday, Club Meeting. No net
4th Saturday, Open for a Volunteer
5th Saturday, (when needed) Open for a volunteer.

<u>The next net is Saturday December 14, 2024. Your net controller is</u> <u>Mike NM5MC.</u> You can reach this Net from any part of NM because of its design. You just need to be on the right frequency, offset, and PL tone for the local repeater closest to your location at the day and time of the net. I use a HT and have checked in from different parts of the state with minimal issues. For current mega link frequency information go to <u>www.nm5ml.com</u>. If you're having issues programming your radio email <u>hdarcpres@gmail.com</u>. You will be directed to someone in the club that can help you. Please_click here to see the operational status of NM5ML Mega Link Repeaters.

HDARC Space/Satellite Communications Program -UPDATE

The club will be hosting a Beginners HAM Radio Satellite Workshop to be given by Ed Poccia, KC2LM. The date for

the workshop is Saturday January 11, 2025 from 10:00 A.M. to 1:00 P.M. <u>The location</u> <u>will be the Bear Canyon Senior</u> Center

<u>https://www.cabq.gov/seniors/senior-multigenerational-centers/bear-c</u> <u>anyon-senior-center</u> in Albquerque New Mexcio. The workshop is open to any interested licensed amateur radio operators. Here is the outline of the workshop:

No prior knowledge nor experience is necessary for success in this most interesting field of Amateur Radio.

At the conclusion of the class, you will be able to:

1. Decode **Slow Scan TV** Images transmitted by the International Space Station (ISS).

2. Find out when the ISS is operational and in position overhead.

3. Have a **FM Voice QSO** with other hams across the country using the repeater onboard the ISS.

4. Use the digipeater on the ISS to make APRS contacts.

5. Make a Satellite Antenna for transmitting and receiving antenna using 18"

steel rods from "Home Depot" and a stick.

6. Use your mobile rig and antenna to make satellite contacts.

7. Use a **Baofeng HT** radio as your satellite station.

8. Track the ISS and other LEO (Low Earth Orbiting) satellites across the sky.

Instruction will be based on *Power Point* slides and LIVE satellite transmission recordings.

Also presented will be a discussion on:

- * the basic equipment you will need.
- * useful Organizations & Internet Sites

If you are interested in attending the workshop please send an email to <u>hdarcpres@gmail.com</u> expressing your interest to attend. Do not hesitate to enroll. This workshop will fill fast. We already have 17 HAMS registered to attend.

Click on this link to access an article from "The Radio Amateur Satellite Corporation (AMSAT)" to learn more about this topic: https://www.amsat.org/wordpress/wp-content/uploads/2023/06/For_Beginners_Co mpilation.pdf

2025 HDARC Winter Field Day

HDARC will participate in the 2025 Winter Field Day. Field starts on January 25, 2025 at 1200 hrs local time. SAVE THE DATE. We are currently seeking a location. I have asked YUL WA5YUL to see if the Albuquerque Open Space

Visitor Center is available. This would provide us with a climate controlled environment with plenty of access to run all the coax and wires we feel like. We will keep you informed. Click on the link for general information about Winter Field Day 2025:

https://winterfieldday.org/

If you know at this point that you want to operate during our field day event, contact me now for an operating assignment. First come first serve.

Digital Mobile Radio (DMR) - Getting on the Air Workshop- Update

The date for the DMR Getting on the AIR workshop is Saturday February 1, 2025 from 10:00 A.M. to 1:00 p.m. <u>The location will be the</u> <u>Bear Canvon Senior Center</u>

<u>https://www.cabq.gov/seniors/senior-multigenerational-centers/bear-c</u> <u>anyon-senior-center</u> in Albquerque New Mexcio.The presenters are John Betz II KI5YIF and Paul Bouthillier KBØWMA. This workshop will get a new DMR operator and their DMR radio on the air. If you are interested in attending this workshop, send me a quick email stating such to <u>hdarcpres@gmail.com</u>. We already have 8 registered to attend as of this printing.

SOTA (Summits on the Air) and CW workshops coming Spring of 2025

We have a commitment from Carol K5TFL to lead a SOTA workshop and activation for licensed HAMS who are interested in learning what SOTA is and directly experiencing an activation in the local area.

We also have a commitment from our club elmer MaryAnn KS7X to do another series of CW workshops for those licensed HAMS wanting to learn and build proficiency with CW. This time around we will include a Club CW challenge in late spring early summer 2025.

We will have more details in the coming weeks about both opportunities.

Test Equipment Loaner Program for Members

HDARC Director Harvey Dove KI5YVY is the lead for this program. *A* copy of the program outline and how to contact Harvey to request a loaner is posted on the home page of NM5hd.org. Click on this link: https://www.nm5hd.org/ files/ugd/d9cb96_5fe894d5a99c43419171257 5def6987b.pdf

The current inventory of loaner test equipment includes:

- MFJ -263 Dummy Loads
- MFJ 802B Field Strength Meter
- RigExpert AA-650ZOOM Antenna

We CURRENTLY have three donated pieces of test equipment. Please consider if you have a piece of gently used and functional test equipment you can donate for this program. The next purchase of test equipment for the program will include RF noise detectors (MFJ 805).

We are looking for volunteers to help us make in house instructional videos to demonstrate how to use each piece of test equipment. If you have the hands on knowledge, help us share that with other club members.

HDARC at the National Museum of Nuclear Science and History

We have been invited back to the National Museum of Nuclear Science and History to set up another hands-on Radio Demonstration for the 2025 Atomic Science Week. We are scheduled for Friday January 31, 2025. If you are interested in participating in the hands-on demonstration contact Yul WA5YUL at <u>yul.bratcher@att.net</u>.

2025 NEW MEXICO TECHFEST CALL FOR PRESENTATIONS

Rocky Mountain Ham Radio (RMHAM) is pleased to announce its (Eleventh!) annual New Mexico TechFest, an ARRL-sanctioned operating specialty event, on Saturday, February 22, 2025. TechFest features a day of quality presentations, poster boards and demonstrations provided by some of New Mexico and Colorado's (and beyond!) leading technical hams on a variety of emerging and relevant topics within amateur radio. Its purpose is to facilitate the sharing of technical knowledge and collaboration within the amateur radio community, and to encourage the discussion of new ideas with one another.

New Mexico TechFest is a hybrid event: Both in-person at the UNM Continuing Education Conference Center (1634 University Blvd NE, Albuquerque, NM 87102) and, for those unable to travel or attend in-person, online via Zoom's professional webinar platform. TechFest is open to all interested hams. Admission is \$15 (proceeds will offset event related expenses detailed on the event website). Online registration will open on/about February 1 when the event's lineup of presentations, poster boards and demonstrations is officially announced. Amateur radio related prizes will be drawn throughout the event. Coffee, water, and light snacks will be available for in-person attendees. An optional, catered lunch will be provided to in-person attendees who purchase one.

CALL FOR TECHFEST PRESENTATIONS, POSTER BOARDS, AND

DEMONSTRATIONS: The New Mexico TechFest is seeking presentations, poster boards and demos on emerging and relevant amateur radio technical topics, techniques, and applications. If you've been working on a special project, are researching a technical topic, or have discovered or adopted a technology or technique that you're applying within amateur radio, TechFest is a great venue to share your knowledge with the amateur radio community in a casual and friendly environment. Presentation slots are 50 minutes in length. Poster Boards and demonstrations are more casual, shorter in length and occur during time slots during the day. Hams interested in providing a presentation, poster board or demonstration are asked to submit a summary/abstract of their proposed topic for consideration *by January 25, 2025*. Visit the New Mexico TechFest website for submission details and key dates.

Additional details about the New Mexico TechFest, for both attendees and potential presenters, can be found at

<u>http://www.rmham.org/wordpress/new-mexico-techfest</u> A printable event flyer for posting on ham email reflectors, your club's website, or your club's newsletter is attached. We hope to see you at TechFest 2025!

73, Brian N5ZGT President - Rocky Mountain Ham Radio (New Mexico)

HDARC East Mountain Group

<u>Thursday Decemeber 20, 2024:</u> East Mountain Group Luncheon. 11:30AM Little Mama's Restaurant (Formerly Katrinas) 505-281-4050 150 NM-344 Edgewood, NM 87015 This is a casual get together. All past, present and future ham operators are welcome !

From the "Elmer"

A-1 Operators

In May of 1933, Ed Handy, W1BDI established the A-1 Operators Club. It is an elite honor which signifies that an A-1 Operator is one whose on-air signal and procedures are without reproach. That year in the early 1930's, 400 hams qualified to be named A-1 Operators. Today, we have (maybe) 6,000 or so. You can find A-1 Ops from around the world, in every license class, and with any operating mode or technology. The thing they all have in common is that they have been named A-1 Operators. And that is not a simple thing, because you can't volunteer yourself for the honor. Unlike all the other awards, recognitions, and certifications the ARRL sponsors, the A-1 Operators Club is unique in that it is the only special acknowledgement in which two other current A-1 Operators have recognized your on-air signals and procedures and have nominated you to this elite group. If you're a "new guy" to ham radio, and want to learn how to "do it right," listen and learn from the A-1 Ops. They know what they're doing, and they will give you an assist if you need one. It's always good to learn from the best. A-1 Operator roster: https://www.arrl.org/a-1-operator-club-roster

73 de MaryAnn, NS7X ns7x@arrl.net

Elmer MaryAnn has prepared several tutoring kits for new hams. These kits will be available at this coming Saturday's meeting. Thank you MaryAnn. If you know of someone wanting to become a ham or if you wish to upgrade, MaryAnn NS7X can be contacted through ns7x@arrl.net

ELMERS are defined as an experienced operator who takes someone under his or her wing, providing personal guidance and answers to the thousands of questions that confront a newbie. In our case it would include those wanting to upgrade.

V.E. Testing

The Institute of HAM Radio Sciences conducts free V.E. testing session at NOON on the 3rd Saturday, of every month immediately following the Monthly HDARC In-Person Club Meeting in classroom #4 at the North Domingo Baca Multigenerational Center. Look for the link <u>FREE TESTING</u> on the club web page. Please, pre register on the club web page for testing www.nm5hd.org. For more information contact Yul Bratcher at his email, <u>yul.bratcher@att.net</u> A big 73 to YUL and the V.E. team for volunteering their time and resources. Without them this could not happen.

Classifieds

Welcome to the classified section. The intent is to give members and other HAMS a place to advertise any HAM related equipment they have for sale. It is also a place for members to list what HAM related equipment they are seeking to buy. There are no new classifieds this week. *This is a free service with no fees attached.*

HAM RADIO ETIQUETTE

- adapted from the original Amateur's Code, written by Paul M. Segal, W9EEA, in 1928

The Radio Amateur is:

CONSIDERATE...He/[She] never knowingly operates in such a way as to lessen the pleasure of others.

LOYAL...He/[She] offers loyalty, encouragement and support to other amateurs, local clubs, the IARU Radio Society in his/[her] country, through which Amateur Radio in his/[her] country is represented nationally and internationally. PROGRESSIVE...He/[She] keeps his/[her] station up to date.

It is well-built and efficient. His/[Her] operating practice is above reproach.

FRIENDLY...He/[She] operates slowly and patiently when requested; offers friendly advice and counsel to beginners; kind assistance, cooperation and consideration for the interests of others. These are the marks of the amateur spirit. BALANCED...Radio is a hobby, never interfering with duties owed to family, job, school or community.

PATRIOTIC...His/[Her] station and skills are always ready for service to country and community.

CONCLUSION

Check the club's website often, there are interesting things being added weekly. <u>www.nm5hd.org</u>

I want to thank the club's COB, Kenneth Ham, AG5UY, for maintaining the website. Thanks Yul, WA5YUL and V.E. team for what they do to provide free testing to the public. Thank you to our Elmer MaryAnn NS7X for contributing to the newsletter. Thanks to those of you who provided content for this newsletters. Feel free to reach out to me anytime at hdarcpres@gmail.com. If you wish to add content to the weekly newsletter the deadline for submission is Monday preceding the Wednesday publication date. *I look forward to hearing from you on the Saturday Chat Shack Net and see you at the Holiday Party/20 year celebration.* 73 Mike

Michael R. Smith, KI5NBP, President HDARC The High Desert Amateur Radio Club of New Mexico, Inc.
